

§ 10.811

19 CFR Ch. I (4–1–10 Edition)

(i)(A) Each of the non-originating materials used in the production of the good undergoes an applicable change in tariff classification specified in General Note 30(h), HTSUS, as a result of production occurring entirely in the territory of one or both of the Parties; or

(B) The good otherwise satisfies the requirements specified in General Note 30(h), HTSUS; and

(ii) The good meets any other requirements specified in General Note 30, HTSUS.

(b) *Value-content requirement.* A good described in paragraph (a)(2) of this section will be considered an originating good under the BFTA only if the sum of the value of materials produced in one or both of the Parties, plus the direct costs of processing operations performed in one or both of the Parties, is not less than 35 percent of the appraised value of the good at the time the good is entered into the territory of the United States.

(c) *Combining, packaging, and diluting operations.* For purposes of this subpart, a good will not be considered a new or different article of commerce by virtue of having undergone simple combining or packaging operations, or mere dilution with water or another substance that does not materially alter the characteristics of the good. The principles and examples set forth in § 10.195(a)(2) of this part will apply equally for purposes of this paragraph.

§ 10.811 Textile or apparel goods.

(a) *De minimis*—(1) *General.* Except as provided in paragraph (a)(2) of this section, a textile or apparel good that is not an originating good under the BFTA because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in General Note 30(h), HTSUS, will be considered to be an originating good if the total weight of all such fibers is not more than seven percent of the total weight of that component.

(2) *Exception.* A textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the

good will be considered to be an originating good only if such yarns are wholly formed in the territory of a Party.

(b) *Textile or apparel goods put up in sets.* Notwithstanding the specific rules specified in General Note 30(h), HTSUS, textile or apparel goods classifiable as goods put up in sets for retail sale as provided for in General Rule of Interpretation 3, HTSUS, will not be considered to be originating goods under the BFTA unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed ten percent of the appraised value of the set.

§ 10.812 Accumulation.

(a) An originating good or material produced in the territory of one or both of the Parties that is incorporated into a good in the territory of the other Party will be considered to originate in the territory of the other Party.

(b) A good that is grown, produced, or manufactured in the territory of one or both of the Parties by one or more producers is an originating good if the good satisfies the requirements of § 10.810 of this subpart and all other applicable requirements of General Note 30, HTSUS.

§ 10.813 Value of materials.

(a) *General.* For purposes of § 10.810(b) of this subpart and, except as provided in paragraph (b) of this section, the value of a material produced in the territory of one or both of the Parties includes the following:

(1) The price actually paid or payable for the material by the producer of the good;

(2) The freight, insurance, packing and all other costs incurred in transporting the material to the producer's plant, if such costs are not included in the price referred to in paragraph (a)(1) of this section;

(3) The cost of waste or spoilage resulting from the use of the material in the growth, production, or manufacture of the good, less the value of recoverable scrap; and

(4) Taxes or customs duties imposed on the material by one or both of the Parties, if the taxes or customs duties

are not remitted upon exportation from the territory of a Party.

(b) *Exception.* If the relationship between the producer of a good and the seller of a material influenced the price actually paid or payable for the material, or if there is no price actually paid or payable by the producer for the material, the value of the material produced in the territory of one or both of the Parties includes the following:

(1) All expenses incurred in the growth, production, or manufacture of the material, including general expenses;

(2) A reasonable amount for profit; and

(3) The freight, insurance, packing, and all other costs incurred in transporting the material to the producer's plant.

§ 10.814 Direct costs of processing operations.

(a) *Items included.* For purposes of § 10.810(b) of this subpart, the words "direct costs of processing operations", with respect to a good, mean those costs either directly incurred in, or that can be reasonably allocated to, the growth, production, or manufacture of the good in the territory of one or both of the Parties. Such costs include, to the extent they are includable in the appraised value of the good when imported into a Party, the following:

(1) All actual labor costs involved in the growth, production, or manufacture of the specific good, including fringe benefits, on-the-job training, and the costs of engineering, supervisory, quality control, and similar personnel;

(2) Tools, dies, molds, and other indirect materials, and depreciation on machinery and equipment that are allocable to the specific good;

(3) Research, development, design, engineering, and blueprint costs, to the extent that they are allocable to the specific good;

(4) Costs of inspecting and testing the specific good; and

(5) Costs of packaging the specific good for export to the territory of the other Party.

(b) *Items not included.* For purposes of § 10.810(b) of this subpart, the words "direct costs of processing operations" do not include items that are not di-

rectly attributable to the good or are not costs of growth, production, or manufacture of the good. These include, but are not limited to:

(1) Profit; and

(2) General expenses of doing business that are either not allocable to the good or are not related to the growth, production, or manufacture of the good, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions, or expenses.

§ 10.815 Packaging and packing materials and containers for retail sale and for shipment.

Packaging materials and containers in which a good is packaged for retail sale and packing materials and containers for shipment are to be disregarded in determining whether a good qualifies as an originating good under § 10.810 of this subpart and General Note 30, HTSUS, except to the extent that the value of such packaging and packing materials and containers may be included in meeting the value-content requirement specified in § 10.810(b) of this subpart.

§ 10.816 Indirect materials.

Indirect materials are to be disregarded in determining whether a good qualifies as an originating good under § 10.810 of this subpart and General Note 30, HTSUS, except that the cost of such indirect materials may be included in meeting the value-content requirement specified in § 10.810(b) of this subpart.

§ 10.817 Imported directly.

(a) *General.* To qualify as an originating good under the BFTA, a good must be imported directly from the territory of a Party into the territory of the other Party. For purposes of this subpart, the words "imported directly" mean:

(1) Direct shipment from the territory of a Party into the territory of the other Party without passing through the territory of a non-Party; or

(2) If the shipment passed through the territory of a non-Party, the good, upon arrival in the territory of a Party, will be considered to be "imported directly" only if the good did
